WEDNESDAY MORNING, NOV. 8, 1876.

BRIEFS.

And now we will try, try, again.

Connecticut is joined to her idols.

Rhode Island did her duty yesterday.

We have met the enemy and we are theirs!

They voted as they fought down in Georgia.

There were too many mules sent to Indiana.

The Quakers in Pennsylvania went to the polls.

They voted too early and too often in New York.

Massachusetts has a diet of Rice for another year.

Two Bens in Congress—Ben Hill and Ben Butler. Well matched!

The Granite State is as true to republican principles as ever. Thanks.

The City Council adjourned last evening for one week. There were superior attractions at the club rooms.

The first election returns that reached us last night were from Jamestown. As goes Jamestown, so goes the Union.

The custom house, postoffice, gold and stock exchanges, and many gin mills, were closed yesterday in New York city.

Hon. S. W. Ballou is reelected to Congress from the western district, and Hon. B. T. Eames from the eastern. Both have good rousing majorities.

The returns show that the greenback candidate, Peter Cooper, gets but 202 votes in New York City in a total vote of 171,000. He will now stick to his glue.

The storm did not extend all over the country yesterday. It was bright and sunny in northern New York and the west, and the people went to the polls with a rush.

The political campaign of 1876 is at length over. The smoke of battle is cleared away and the results are in great part before us. It has been a hard fought and hotly contested campaign from the first to the last. Both parties have put their best and most available men into the field, and each has polled its largest possible vote. The hopes of partizans have been aroused to the highest pitch, and those belonging to the defeated party will feel keenly their disappointment. But there is consolation even for such. The tenure of office is short and the opportunity will soon come to try again. Many, indeed most of the evils foreseen in a political campaign are more immaginary than real and our faith in republican institutions is such that we shall expect the avoidance of the dangers that have threatened our country. It is not in the power of either party to overthrow our institutions. The attempt has been made under more favorable circumstances than will be likely to occur again, and the result was such as to extend and perpetuate republican government. And so we shall as a nation continue to prosper. The American flag will still wave over a free and happy people.

The redoubtable Tupper called in at Scribner's the other day for the purpose of paying his compliments to Dr. Holland; but that gentleman was fortunately out, and thereby escaped a terrible infliction. Mr. Tupper is a little man with bushy hair, and wears a cape coat. He has an intense admiration for Tupper, and in visiting a certain printing office in New York, he went up to one of the compositors, and putting out his hand, said, "I understand that you wish to shake hands with me?" The young man had expressed no such desire, but he shook. To another the proverbialist said: "Of course you have heard of me; I am Martin Farquhar Tupper!" The young man says that he was tempted to say "Yes, I have often read of you in the Bible;" but he didn't.

FROM NEW YORK.

The Weather.

New York, Nov 7, 12 o'clock, M.

Rain fell heavily from midnight to daylight and has continued all the morning. The polls opened at sunrise and in both this city and Brooklyn there were long lines of voters who were waiting ready to deposit their ballots. It was a scene that has not been witnessed here before for a great many years, notwithstanding the heavy rain.

The vote polled, thus far, is the heaviest that was ever known in this city.

The campaign seems to have culminated in different districts on various local candidates for municipal offices, for whom, apparently, the majority of the political work is being done. Thus far, no trouble is reported anywhere.

LATER.

At noon the wind veered round to the southwest and the prospects are favorable to clearing away soon.

The voting question is the general topic of conversation on the street today, and business is entirely suspended.

The weather in the interior and western and northern portions of this state is generally pleasant.

The probabilities are that a full vote of the whole state will be brought out.

LATER.

Two hundred districts give Tilden 35,000 majority and points to a democratic majority in the state.

Troy gives 1,200 majority for Tilden.

Syracuse gives 1,300 republican majority.

There are large republican gains in all the interior towns.

New York, Nov. 7. 10 p. m.

Four hundred and twenty districts give Tilden 48,095 majority.

New York, Nov. 8,—1 A. M.

The New York Herald's bulletin says that Virginia has gone democratic, and will elect all democratic congressmen. It says that the state of New York has gone democratic by 40,000. That Wisconsin has gone democratic. Chicago gives a democratic majority with a gain of 12,000 over that of 1872. 100 towns of Maine give Hayes 32,936, Tilden, 23,512. Hayes majority probably 17,000. Grant's majority was 32,328. Texas has probably gone republican. Returns from Georgia indicate the election of full democratic delegation. The democrats claim South Carolina by 4,000.

The democrats claim New Jersey by 5,000 to 6,000, and South Carolina and California also, but the republicans do not wholly admit this.

Tilden's majority is 53,610.

A dispatch received at midnight says that the republicans claim South Carolina.

The Times claims the election of Hayes by a good majority.

Midnight.

Returns up to this hour indicate that Tilden has carried off the doubtful states, North Carolina, Connecticut and New York.

Concord, Nov. 8.—1 a m.

Seventy cities and towns give Hayes 12254, and Tilden 11371.

LATER.

One hundred and five towns gives Hayes 19625, and Tilden 17300.

2 o'clock a m.

One hundred and forty towns and cities give Hayes 30368, and Tilden 26785. Republican loss of 1252.

Rhode Island.

PROVIDENCE, R. I., Nov. 7, 12 o'clock, M.

The election is proceeding briskly, considering the heavy rain. Returns from the several wards in this city at 11 o'clock A.M., show about 2,679 votes cast, with 1,070 majority for Hayes.

Massachusetts.

A large vote is being polled in Boston.

Rice keeps well up with the ticket in Worcester.

Reports from the 7th District indicate the election of Butler.

Boston, Nov. 7.

There is no doubt but Ben Butler is elected in the 7th District, having a majority over all competitors.

Boston, Nov. 7.—10 p. m.

290 towns have given Hayes 36,230; Tilden, 24,953; Rice, 32,761; Adams, 21,153.

Boston, Nov. 8.—1 a m.

Butler is undoubtedly elected. Banks is elected in the 5th district, Robinson in the 11th, Rice in the 9th, Norcross in the 10th, Harrison in the 2d, Deane in the 3d, and Morse in the 4th.

Boston, Mass., Nov. 7,—Midnight.

One hundred and sixty three towns give Hayes 66,893 votes; Tilden, 43,436; Rice, 61,531; Adams, 41,961; Baker, 5,831. Boston, (one ward missing,) Hayes, 19,136; Tilden, 22,206; Rice, 18073; Adams, 21,575; Baker, 1,135.

Maine.

PORTLAND, Me., Nov. 7.

The election here is very quiet today, but a full vote seems to be coming out in the city. The rain will make the roads very bad, and probably the vote will be very light in the country.

LATER.

Fifty towns give Hayes 17298, Tilden 12242. A republican loss of 85 votes.

New Hampshire.

Concord N. H., is giving a very large vote for Hayes and Wheeler. They are largely ahead at least in three wards.

The returns are in sufficient to show that the state has gone for Hayes and Wheeler by at least 4000 majority.

Concord, Nov. 7.—10 p m.

Seventy towns give a democratic gain of 268.

Vermont.

Vermont, Nov. 7.—12 p m.

Eighty-nine towns in vermont give 25256, and Tilden 12379. The same towns gave Grant 23536, and Greeley 6810.

Ohio.

Cincinnatti, O., Nov. 7,—10 p. m.

Returns indicate 1,500 republican majority in the city and county. Republican majority in the state with gains in most cases.

Cincinnati, Nov. 7.—Midnight.

Six voting places in this city show 88 republican gain. Further returns from the interior of the state show continued republican gains.

Indiana.

The state of Indiana, so far as heard from, is doubtful.

Indianapolis, Nov. 7,—Midnight.

Forty townships in Indiana give Tilden 5,809, Hayes, 4,841. Same places in October gave Williams 5,789, Harrison, 5,898. Unofficial returns show large democratic gains.

Indianapolis, Nov. 7.

Sixty-two towns show net democratic gains of 50. The indications are that Tilden's majority in the state will be from 7000 to 10000.

LATER.

Eighty towns gives tilden 12376, and Hayes 13433.

North Carolina.

The democrats elect their congressmen. Tilden probably carries the state.

Wilmington, Nov. 8.

Returns thus far show universal democratic gains and indicates a majority in the state. The republicans claim the state but admit it to be close.

Connecticut.

Hartford, Nov. 7.—10 p m.

Large democratic gains. The indications are that the state has gone for Tilden. New London gives a republican majority of 217. Democratic gains of 157.

LATER.

Further returns throughout the state show a republican gain of 1800, leaving 3000 majority yet to be overcome.

Hartford, Nov. 8.

Ninety-four towns have been heard from which give Hayes 32302, and Tilden 33145. A democratic majority, so far, of 1001, against 3963 last spring. Hawley is defeated in the 1st district.

Maryland.

Baltimore, Nov. 7.

The returns thus far indicate that the state of Maryland has gone for Tilden by a majority of 15000. Returns are not all in.

Pennsylvania.

COTTON MANUFACTURES.—The opinion is gaining ground that our cotton mills will be in full operations next year, with a prospect of being remunerative to the proprietors. The London Times expresses similar views relative to the cotton industries of Great Britain. Should these anticipations—at home and a broad—be realized, the demand for cotton will fully equal the supply. Thus, the manufacturers and producers of cotton may be equally benefitted, and a new era of prosperity dawn upon us.

A Persian philosopher being asked by what method he had acquired so much knowledge, answered, "By not allowing shame to prevent me from asking questions, when I was ignorant."

Talent is power; tact is skill. Talent makes a man respectable; tact makes him respected. Talent convinces, tact converts, Talent commands; tact is obeyed. Talent is something; tact everything.

Whole number of electoral votes, 369; necessary to a choice, 185. Illinois gave 25,915 anti-republican majority on the vote for representatives in congress in 1874.

They were giving "Pique" at a theatre one Saturday afternoon lately. Two young ladies, living at a distance, having to take the train at an early hour, were obliged to leave before the representation was finished. Selecting, as they thought, a very quiet time in the play, they were passing down the aisle, when an actor suddenly appeared on the stage, and repeating a part of his role, exclaimed, "There they go; the only two women I ever loved. One I couldn't have, and the other I can't get." Imagine the amusement of the audience and the astonishment of the young ladies.

THE CLUB ROOMS.

The faithful of both parties gathered in large numbers at the club rooms last evening. All were eager for the news, and hope, and fear, had the ascendency by turns. Despite the bold assertions of implicit faith in the success of their favorite tickets, it was evident that the thoughtful men of neither party were fully satisfied that victory was theirs. At the original Tilden and Hendricks club room the veteran democratic leaders were present in full force, while at the central, the rush was still larger. The republicans came together at a somewhat later hour and all were busily engaged discussing the situation and speculating on the probable results. The returns came in rather tardily at first and gave no indication of the general result. At the republican headquarters the news that came from New York was far from assuring and though several dispatches came to the effect that Tilden had carried the state, the crowd was evidently disposed to expect better tidings at a later hour. At the democratic rooms the reverse was true, and the enthusiasm knew no bounds over the reported victory.

As the evening wore away and the returns continued to favor the democrats, the republican zeal went down lower and lower. The news from Connecticut, Louisiana and South Carolina were received in respectful silence. Still adverse reports came in with now and then a cheering ray of sunlight, but it was of no use. The conviction steadily grew upon all present that the democrats were the victors. At midnight hot coffee was served, amid cheers over the gallant fight that had been made, and the company dispersed in the best of spirits and with hope of better tidings in the morning.

The new Opera House in Florence is to cost a million dollars. It will take five years to build and another to fresco.

The vandalism of tourists has destroyed the monument over Bunyan's grave at Bunhill Fields. It has stood nearly 200 years.

"Elbow Room" is the title of Max Adeler's new book. It will be out during the second or third week of the present month.

"It's all for the best," remarked Blinks, with a sigh, as he paid for the hat he had lost. "Nay," interposed the lucky man, "'tis all for the better."

Not less than 10,000,000 persons visited camp meetings in America in the course of the past summer, and the property used for these purposes was worth $5,000,000.

Prosperity shines on different persons much in the same way that the sun shines on different objects. Some it hardens like mud, while others it softens like wax.

A Western paper says that "true music is something that stays with you nights." This would seem to put the nightmare in the front ranks of American composers.

A British scientist finds that the brain of the dog is smaller than the wolf, and that the brain of a Newfoundland dog is very little larger than a terrier's.

To save quarreling with the life insurance company, a Chicago woman stopped her husband's funeral procession before the office and sent word to the president to satisfy himself.

And still the postal department has another idea in postal cards—something combining the beauty of an oil painting and the convenience of a shawl-strap.—[Boston Traveller.

Bruce had recourse to the sword, Tell to a bow and arrow, and Washington appealed to the God of battles, but when a woman strikes for liberty, she uses anything she can lay her hands on.—[Brooklyn Argus.

An organist of our acquaintance came in the other day full of glee at the improvement of the times. The church committee had offered to raise his salary—that is, the part that was in arrears.

The Baltimore Bulletin says that, "when Burnside is at home in Rhode Island, the shadow of his whiskers trespasses upon Massachusetts and Connecticut." This is mere jealousy, as that editor's photograph would prove.

Now that Tupper has arrived in this country to give readings from his works, Walt Whitman should go to England and read selections from his poems. We must get even with those Britishers somehow.—[Norristown Herald.

The head-waiter at an up-town hotel where style is above everything else ought to be named for foreign ambassador. He is too consequential in dress suit and he wo'l for this life, and as the gods doubtless love him the mystery is why he did not die young! The way he inspects you before he designates your seat by a theatrical wave of his soiled hands is simply superb, and his airy manner is just breezy enough to be intolerable. One day a western man came in, and, catching the head-waiter by the arm and shoulder with an iron grip, hissed in his ear: "Give me a seat without any airs, or I'll break your back!" The western man was advantageously seated.—[N. Y. Evening Mail.

MASON & HAMLIN
CABINET ORGANS
Have been unanimously assigned the
"FIRST RANK
in the SEVERAL REQUISITES"
Of such instruments, at the
U. S. CENTENNIAL, 1876,

and are the only organs assigned this rank. Their superiority is thus declared, not in one or two respects only, but in all the important qualities of an organ. A medal and diploma have also been awarded them, but medals of equal value were awarded all articles deemed worthy of recognition, so that many makers can advertise "first medals" or "highest awards."

Comparative rank in excellence, has been determined by the Judges' reports alone, in which the MASON & HAMLIN ORGANS are unanimously assigned "The FIRST RANK in the several requisites" of such instruments, and are the only ones assigned this rank. See judges' reports. This result was not unexpected, for these organs have uniformly taken highest awards in such competions, there being less than six exceptions in hundreds of comparisons. They were awarded first medals, and highest honors at Paris 1867, Vienna 1873, Santiago 1875, Philadelphia 1876; having thus been awarded highest honors at every world's exhibition at which they have competed, and being the only American organs which ever obtained any award in Europe.

NEW STYLES, with improvements exhibited at the CENTENNIAL; elegant new cases in great variety. Prices very lowest consistent with best material and workmanship. Organs sold for cash or installments, or rented until rent pays. Every organ warranted to give entire satisfaction to every reasonable purchaser or the money returned. TO THE LOVERS of STEREOSCOPIC VIEWS.

THE ATTENTION of the public is invited to the following views from negatives by J. A. WILLIAMS which is believed to be the best and largest collection of the gems of Newport scenery ever offered.

The negatives are all carefully taken with the best materials and instruments and aim to present not merely patches of landscapes from points chosen at random as is the case with many others, but, views which shall combine within themselves all the best elements of a picture in the artistic sense.

We would call particular attention to our new cabinet size views taken the present season, 1876, which exhibit with all the fidelity of the stereoscope.

Parties who may wish to make presents to their friends abroad, or to carry home mementos of Newport, cannot make a more acceptable choice than by selecting from the many beautiful views of Newport and surroundings.

Interiors and exteriors of houses taken to order, parties horses, &c.

Fall Campaign of 1876.

TO ALL who wish to go through the exciting presidential election with their good reputation unspotted, I will say that the only and correct way is to come direct to my ranch and purchase a good serviceable carriage with which you can reach all political orators who are going to tell the dear people things, how that our nation and our great country depends upon the people following their advice instead of each voter acting and acting for himself. If each voter will do so then advice our country is safe.

I offer to sell cheap the following

CARRIAGES:

9 top buggies all in good order and newly painted,
4 half top barouches,
1 Brown carryall; second-hand, in good order,
1 coupe or storm carryall, cheap,
2 new phaeton buggies,
6 open wagons cheap,
1 new carryall,
1 new express wagon,
1 new open business wagon cheap,
4 double express wagons,
1 two horse extension carryall,
2 nice dog carts,
3 two horse sleighs, (better buy now,) and several others.

Thanking my friends for their very liberal patronage during the past. By their kindness I have been able to dispose of over forty different carriages—a very good sale for Newport. I still hope by fair dealing to merit a continuance of their favors.

HOUSE PAINTING.

Now is the time to make arrangements for fall and winter house painting, and as I don't propose to call and annoy people at their residences by asking them for work and promising to do more work and better work than my brother painters can do for the same money; but, if people wanting anything done in the painting line from glazing a sight of glass to painting a hotel, will call on me or drop a note to box 21, I will do the utmost to please, and will warrant all work entrusted to my care, to be done as agreed and at the time specified. My reference is the parties whom I have worked for, for the past ten years or more.

Respectfully,
A. L. BURDICK,
House and carriage painter.

Kidney Complaint.

PROBABLY there is no complaint that afflicts the human system, which is so little understood at the present time, as some of the varied forms of Kidney Complaints.

There is no disease which causes such acute pain or is more alarming in its results than when the kidneys fail to secrete from the blood the uric acid, and other poisonous substances, which the blood accumulates in its circulation through the system.

If, from any cause the kidneys fail to perform the functions devolving upon them, the consequences are taken up by the Absorbents and the whole system thrown into a state of disease, causing great pain and suffering, and very often immediate death. Hence the importance of keeping the Kidneys and Blood in a healthy condition, through which all the impurities of the body must pass.

PAIN IN THE BACK.

There is no remedy known to medical science which has proved itself more valuable in cases of Kidney Complaints than the VEGETINE. It acts directly upon the secretions, cleanses and purifies the Blood, and restores the whole system to healthy action.

The following extraordinary cure of great sufferers, who had been given up by the best physicians as hopeless cases, will speak for themselves, and should challenge the most profound attention of the medical faculty, as well as of those who are suffering from Kidney Complaint.

THE BEST MEDICINE.

FORT MARSHFIELD, Aug. 22, 1870.

MR. STEVENS: Dear Sir—I am seventy-one years of age; have suffered many years with Kidney Complaint, weakness in my back and stomach. I was induced by friends to try your VEGETINE, and I think it the best medicine for weakness of the Kidneys I ever used. I have tried many remedies for this complaint, and never found so much relief as from the VEGETINE. It strengthens and invigorates the whole system. Many of my acquaintances have taken it, and I believe it to be good for all the complaints for which it is recommended. Yours truly,

JOSIAH H. SHERMAN.

Pronounced Incurable.

BOSTON, May 30, 1871.

H. R. STEVENS, Esq.: Dear Sir—I have been badly afflicted with Kidney Complaint for ten years; have suffered great pain in my back, hips and side, with great difficulty in passing urine, which was often, and in very small quantities, frequently accompanied with blood and excruciating pain.

I have faithfully tried most of the popular remedies recommended for my complaint; I have been under the treatment of some of the most skillful physicians in Boston, all of whom pronounced my case incurable. This was my condition when I was advised by a friend to try VEGETINE, and I could see the good effects from the first dose I took, and from that moment I kept on improving until I was entirely cured, taking in all, I should think, about six bottles.

It is indeed a valuable medicine and if I should be afflicted again in the same way, I would give a dollar a dose, if I could not get it without.

Respectfully, J. M. GILE,
261 Third Street, South Boston.

NEARLY BLIND.

H. R. STEVENS: Dear Sir—In expressing my thanks to you for benefits derived from the use of VEGETINE, and to benefit others, I will state:—

When eight or nine years old I was afflicted with Scrofula, which made its appearance in my eyes, face and head, and I was very near blind for two years. All kinds of operations were performed on my eyes, and all to no good result. Finally the disease principally settled in my body, limbs and feet, and at times in an aggravated way.

Last summer I was, from some cause, weak in my spine and kidneys, and it was at times very hard to retain the urine. Seeing your advertisement in the Commercial, I bought a bottle of VEGETINE, and commenced using according to directions. In two or three days I obtained great relief. After using four or five bottles I noticed it had a wonderful effect on the rough, scaly blotches on my body and legs. I still used VEGETINE and the humorous sores one after another disappeared until they were all gone, and I attribute the cure of the two diseases to VEGETINE, and nothing else.

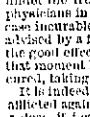

If I am ever afflicted with anything of the kind again I shall try VEGETINE as the only reliable remedy. Once more accept my thanks, and believe me to be, Very respectfully, AUSTIN PARROTT,
Dec 1, 1872. No. 35 Hano St., Cincinnati, Ohio.

Diseases of the Kidneys, Bladder, etc., are always unpleasant, and at times they become the most distressing and dangerous diseases that can affect the human system. Most diseases of the Kidneys arise from impurities in the blood, causing humors which settle on these parts. VEGETINE excels any known remedy in the whole world for cleansing and purifying the blood, thereby causing a healthy action to all the organs of the body.

TO PHYSICIANS AND INVALIDS.

The flexible, self-applying Electric Disks, Dr. Garratt's Invention, make without care or trouble, "gentle and prolonged applications" of very fine primary currents. They prove sufficiently active and durable for this peculiar method.

While worn by night or day for cold rheumatic neuralgia, lameness, weakness, or chronic pains, the disk is sure to generate and apply its constant multipolar electric action. Each metal acts as element and pole. They are wired avalanche for deep polar inworking. As shown by the expert judges, and in practice, these disks excel all other attempts at this sort of appliances. Nothing like them.

GENERAL NEWS.

Election Returns!

LAST EVENING'S DISPATCHES.

The Democratic Star in the Ascendant.

A SOLID SOUTH RETURNS TO ITS OLD LOVE.

DIVIDED COUNSELS IN THE NORTH AND DISASTER TO THE REPUBLICAN PARTY.

The Weather.

New York, Nov 7, 12 o'clock, M.

Rain fell heavily from midnight to daylight and has continued all the morning. The polls opened at sunrise and in both this city and Brooklyn there were long lines of voters who were waiting ready to deposit their ballots. It was a scene that has not been witnessed here before for a great many years, notwithstanding the heavy rain.

The vote polled, thus far, is the heaviest that was ever known in this city.

The campaign seems to have culminated in different districts on various local candidates for municipal offices, for whom, apparently, the majority of the political work is being done. Thus far, no trouble is reported anywhere.

LATER.

At noon the wind veered round to the southwest and the prospects are favorable to clearing away soon.

The voting question is the general topic of conversation on the street today, and business is entirely suspended.

The weather in the interior and western and northern portions of this state is generally pleasant.

The probabilities are that a full vote of the whole state will be brought out.

LATER.

Two hundred districts give Tilden 35,000 majority and points to a democratic majority in the state.

Troy gives 1,200 majority for Tilden.

Syracuse gives 1,300 republican majority.

There are large republican gains in all the interior towns.

New York, Nov. 7. 10 p. m.

Four hundred and twenty districts gives Tilden 48,935 majority.

New York, Nov. 8,—1 A. M.

The New York Herald's bulletin says that Virginia has gone democratic, and will elect all democratic congressmen. It says that the state of New York has gone democratic by 40,000. That Wisconsin has gone democratic. Chicago gives a democratic majority with a gain of 12,000 over that of 1872. 100 towns of Maine give Hayes 32,336, Tilden, 23,542. Hayes majority probably 17,000. Grant's majority was 32,328. Texas has probably gone republican. Returns from Georgia indicate the election of full democratic delegation. The democrats claim South Carolina by 4,000.

The democrats claim New Jersey by 5,000 to 6,000, and South Carolina and California also, but the republicans do not wholly admit this.

A dispatch received at midnight says that the republicans claim South Carolina.

The Times claims the election of Hayes by a good majority.

Concord, Nov. 8.—1 a m.

Seventy cities and towns give Hayes 12251, and Tilden 11371.

LATER.

One hundred and five towns gives Hayes 19625, and Tilden 17300.

Massachusetts.

A large vote is being polled in Boston.

Rice keeps well up with the ticket in Worcester.

Reports from the 7th District indicate the election of Butler.

Boston, Nov. 7.

Maine.

PORTLAND, Me., Nov. 7.

The election here is very quiet today, but a full vote seems to be coming out in the city. The rain will make the roads very bad, and probably the vote will be very light in the country.

LATER.

Fifty towns give Hayes 17298, Tilden 12242. A republican loss of 85 votes.

New Hampshire.

Concord N. H., is giving a very large vote for Hayes and Wheeler. They are largely ahead at least in three wards.

Returns indicate 1,500 republican majority in the city and county. Republican majority in the state with gains in most cases.

Cincinnati, Nov. 7.—Midnight.

Six voting places in this city show 88 republican gain. Further returns from the interior of the state show continued republican gains.

The state of Indiana, so far as heard from, is doubtful.

Indianapolis, Nov. 7,—Midnight.

Forty townships in Indiana give Tilden 5,809, Hayes, 4,841. Same places in October gave Williams 5,789, Harrison, 5,898. Unofficial returns show large democratic gains.

Sixty-two towns show not democratic gains of 50. The indications are that Tilden's majority in the state will be from 7000 to 10000.

LATER.

Eighty towns give Tilden 13376, and Hayes 13433.

North Carolina.

The democrats elect their congressmen. Tilden probably carries the state.

Wilmington, Nov. 8.

Returns thus far show universal democratic gains and indicates a majority in the state. The republicans claim the state but admit it to be close.

Hartford, Nov. 7—10 p m.

Large democratic gains. The indications are that the state has gone for Tilden. New London gives a republican majority of 247. Democratic gains of 157.

Returns indicate that a very heavy vote has been cast. Butler in the seventh district, Banks in the fifth, Claflin in the eighth, Crapo in the first, Robinson in the eleventh, Rice in the ninth and Norcross in the tenth are elected to Congress. South Carolina.

The republicans claim South Carolina by 15,000 majority. The democrats claim returns enough received to insure the election of Evins and Aiken, democrats, to Congress in place of Wallace and Carpenter, republicans.

Later returns give Hampton 7000 majority. This does not include Charleston county, which will probably give Chamberlain 5000 or 6000 majority. The election will be very close, with the chances in favor of Hampton for Governor and Hayes for President.

Ohio.

Returns indicate that Ohio has gone republican by from 8000 to 10,000 majority.

Minnesota.

A St. Paul, (Minn.,) dispatch, dated at noon, says the republicans estimate twelve thousand majority for Hayes. The democrats concede seven thousand, five hundred.

Kentucky.

Tilden's majority in Kentucky is estimated at over 60,000.

West Virginia.

A special says: Returns coming in show democratic gains in every precinct in the state. Tilden's majority will be over 20,000.

Wyoming Territory.

Returns from all but a few precincts indicate the election of W. W. Corlett (republican) for delegate, by 700 majority.

New Hampshire.

Republican specials from New Hampshire claim the state by 2000.

Maine.

The majority for Hayes is about 17,000.

Connecticut.

The states goes for Tilden, but a majority of the legislature is republican. The election of Hawley is in doubt. Democratic majority in the state about 2000.

THE FUNDING OPERATIONS.

How and Where the New Bonds Have Been Sold.

WASHINGTON, Nov. 6.

An enormous impression exists that the syndicate have received and paid for the total amount, $50,000,000, of the four and one-half per centum bonds subscribed for.

Mr. Belmont is getting credit for having taken, in behalf of the Rothschilds, all the bonds subscribed for, and of having paid therefor an equal amount of money into the Treasury of the United States, when, as a matter of fact, he has done nothing of the kind. Of the $50,000,000 ordered by the syndicate, $10,000,000 were sent to the United States financial agent in London nearly eight weeks ago, and according to recent advices only a small part of this amount, about $2,000,000, has been actually delivered to the Rothschilds, who are delaying taking the bonds until near the time when the interest on the called six per centum bonds shall cease. A second lot of $10,000,000 has been forwarded to our financial agent in London within two or three days, making $20,000,000 in all, which will in all probability comprise the sum total of the bonds that will be sent abroad until the syndicate make a further subscription.

Of the remaining $30,000,000 subscribed for about $23,000,000 have been delivered to the New York syndicate through Assistant Treasurer Hillhouse, and paid for. Of this amount a very large part have been bought by the national banks to deposit with the Comptroller of the Currency here for circulation in lieu of six per centum bonds. As a matter of fact, therefore, only about $25,000,000 of the $50,000,000 subscribed for by the syndicate have been taken and paid for, $23,000,000 in New York and $2,000,000 in London.

The sale of the four and one-half per centum bonds has been more rapid in New York than in London—although it is said in behalf of the subscriptions made in the latter place that they were all or nearly all "time" subscriptions, and made with the understanding that the persons subscribing would not be required to take the bonds under about ninety days.

It is expected that at least the $7,000,000 yet remaining here of the $50,000,000 will be taken in New York by the national banks, making $30,000,000 delivered in this country to $20,000,000 sent to London. Whether any further subscriptions will be made by the syndicate remains to be decided.

THE HAYDEN SURVEY.

What it has Accomplished this Year.

WASHINGTON, Nov. 7.

Professor Hayden's surveying and exploring expedition have finished their work in the field and returned here.

The party surveyed about twenty thousand square miles in southwestern and northwestern Colorado, which completes the survey of the state. They devoted their time to the topography, geology and mineralogy of the sections of the state heretofore unsurveyed, and the result of their labors will now be put into permanent form by Professor Hayden.

THE EAST RIVER BRIDGE.

Saturday morning the great "foot-bridge cable," the stretching of which involved even greater care and labor than its predecessors, was finally secured in its place at the New York anchorage. On Friday night it was carried about half way between the anchorage and the tower, and Saturday all that remained to be done on the New York side was to connect with the anchorage and secure the cable in the socket intended for its reception. The process of securing the cable is a peculiar and interesting one. A heavy iron bolt is screwed to iron bars, anchored in the masonry. This bolt is hollowed out in cone shape, and after the end of the cable is passed through the strands are unravelled and stretched apart. Then iron pins, wedge-shaped, are driven between the strands, the wires are coiled and interlaced around these pins, and finally a mass of molten lead is poured into the space so as to fill up the interstices. Nothing but the bursting of the iron socket can then displace the cable, for the greater the strain the greater the resistance.

Saturday afternoon preparations were made at the Brooklyn side to carry the other end of the cable to the Brooklyn anchorage on Monday. The manila rope is already fastened to the great cable, and on Monday morning the work of raising the "bight" to the top of the tower was commenced. About one o'clock Saturday a scow arrived at the Brooklyn pier containing another 2½ inch cable, the stretching of which will occupy the workmen for the week to come. It took just forty minutes to unload the reel, which, in view of its enormous weight—15,160 pounds—was marvellously expeditious. Mr. Farrington and Chief Engineer Martin expressed themselves as highly gratified with the progress of the work, and anticipate to put the foot-bridge in position before January. The work on the bridge proper will of course depend upon the ability of the manufacturers of the wire cables to supply them as required.—[N. Y. Herald.

THE DAY.

A torchlight procession is announced. Keep cool, boys.

The republicans have gained four congressmen in Massachusetts.

Collector Macy proposes to resign his position and announced his purpose to do so several days since.

The City Council adjourned last evening for one week. There were superior attractions at the club rooms.

—Capt. Benjamin S. Melville of this city will sail for Cardenas, Cuba, about the 20th inst., and will remain till July next.

There will be a meeting of the executive committee of the Hayes and Wheeler club this evening at 8 o'clock.

The first election returns that reached us last night were from Jamestown. As goes Jamestown, so goes the Union.

The custom house, postoffice, gold and stock exchanges, and many gin mills, were closed yesterday in New York city.

Report comes from Philadelphia that three-fourths of the foreign goods exhibited at the Centennial have been sold, and that, few, if any, will be re-shipped home.

Everybody will be glad to know that Hon. L. P. Morton has been elected a member of Congress from his district in New York. He never sought nor held an office before.

The grumblers and fault finders in the republican party are responsible for the defeat of yesterday. They have scolded about President Grant and misrepresented the administration under the cry of reform until they disgusted those who believed their words, and thus drove them from the party lines. Certain newspapers like the New York Tribune, Springfield Republican, and lesser lights of the "independent press" have cried out against "the machine," "the ring," and the leaders in general, until they have prepared the country for the harvest that has been gathered. Most of these papers supported Hayes and Wheeler when the time came, but they could not bring back the men whom they had led astray. We have not been beaten by the democrats so much as by ourselves. Nevertheless the result is the same and the republican "reformers" must wait to see their ends accomplished by their co-laborers under the same title in the opposition ranks.

THE RESULT IN RHODE ISLAND.

Our little state stands by the flag. Amid the general defection she maintains her republican honor and points the finger of shame to some of her big sisters who have wandered into the byways of democracy. The returns show that the state gives Hayes and Wheeler 15590 votes to 10596 for Tilden, 72 for Cooper and 53 for Green Clay Smith the prohibitionist. The towns of New Shoreham and Charlestown have not been heard from and are not included in this statement. In the eastern Congressional District Hon. B. T. Eames has 8422 votes against 4919 for Brunsen and 40 for Chase the representative of the greenbackers. A vigorous attempt was made in the western district to defeat Mr. Ballou but his friends give him 7084 votes to 5261 for Mr. Page and 47 for Mr. Bailey. Mr. Ballou has therefore a majority of 1773.

All the constitutional amendments are defeated as we anticipated. The people of Rhode Island will not lightly change the fundamental law of the state. They do not believe in tinkering the constitution at every session of the General Assembly and in the interest of the politicians. It may as well be considered settled that we are to live under the constitution as it is, at least for another generation. Let us have peace.

ELECTION PERSONALS.

......Gen. Hawley is defeated for congress in the first Connecticut district.

......Ben. Butler triumphs over Judge Hoar and the Boston newspapers and bolters generally. It is to the credit of a man that he is popular at home.

......The city of Boston elects two democratic congressmen.

......Smith Ely Jr., is chosen Mayor of New York.

......Gen. Banks is again on the winning side. He goes back to congress, having been elected two years ago by the democrats and bolters and this year by the republicans.

......Gov. Claflin had a good majority and so did Dr. Loring though there was bolting in both districts.

BOOK NOTICES.

HELEN'S BABIES.

The Norwich Bulletin publishes an extract from a private letter, which tells all about the author of "Helen's Babies." It is written by John Habburton, of the Christian Union. He is the husband of Alice Hastings, daughter of Dr. Hastings, of Hartford; and Toddie and Budgie are their own children. They have lost one (according to the story), and the two that are living are really called Teddy and Bug; but he altered the latter to Budgie in the story. You see the name of the uncle, who is supposed to be writing the story, is only a slight alteration of the author's real name, if you read the initials and the name together—H. A. Burton—Habburton. And Alice Mayton whom he marries is Alice Hastings, whom Charlotte's sister knows quite well.

Mr. Habburton offered the story to Osgood, of Boston, but they feared it might not be saleable, and they only offered him $200, which Mr. Habburton declined to accept. They say his profits are only ten cents per volume, but they have now amounted to between $2,000 and $3,000.

"DOLCE FAR NIENTE."

BY O. O. FREEMAN.

Up in the woodland where the russet hills
Hem in the brook that dips and sings to me
In flittering swifts, as down it runs and spills
Its heart out in the sea.

The sugar-maple and the sumacs glow
Like dying embers in the amber haze,
Forever fanned by fragrant winds that blow
Through all our autumn days.

Far o'er the brows of the distant hills
The opal vapors drop like bridal veils.
While dragon flies in myriads o'er the rills,
Dart forth in gleaming mails.

Deep in the tasselled corn the reaper stands
And pulls his sickle through the trembling stalks,
While singing round him many merry hands
Bind up the sheaves in shocks.

The measured strokes, that, sounding strong and true,
Come up in muffled echoes from the wood,
Proclaim the axemen busy as they hew
Deep in its solitude.

Anon the winding of a distant horn
Comes faintly borne upon the languid breeze,
Hinting that noon hath closed the golden morn,
The toiler's hour of ease.

When suddenly, with one great puff of wings,
A cloud of birds swarm up from off the wold,
And surge away with noisy chatterings
O'er field and fell and fold.

The butterflies drift down the noonday tide
And listless cling to swaying thistle plumes;
The pollen-dusted bees roam far and wide
To fill their waxen rooms.

So all day long here let me idle be,
With naught to fret the mind or thing to do,
But watch the wings of birds so silently
Skim through the tranquil blue

Here let me lie—a little while to feel
The joy of other years return again—
A calm and melancholy pleasure steal
Athwart the sense of pain.

And grant that at the close of life's short lease,
When autumn on my brow her finger lays,
Like to the dying summer it may cease
With Indian summer days.

On the Rio Grande, October, 1876.

THE BURIAL OF THE SULTANS

A correspondent at Constantinople reports a conversation with one who has long been a resident there and who has an intimate acquaintance with Turkish life and manners. He says: "And how are the sultans buried?" I asked. "I will tell you," was the reply, "what was told me by a Turk among Turks—one who knew and would tell the truth." The dead sultans have always been buried like dogs. The great thing is to get rid altogether of the idea of a dead sultan; for never was there a people among whom is so literally carried out the idea that '*Le Roi ne meurt pas.*' When it is quite certain that a sultan is about to die, those around him hardly wait for the breath to leave the body. Most of them run away to be ready to do homage to the new occupant of the throne. Then follows an odd arrangement; all homage is due to the living sovereign; nothing must interfere with that, not even the corpse of the late sovereign. So one or two of his old servants only remain with the body, and when it is quite dead they roll it up in straw matting and prop it up behind the door of his room, to be as much out of sight as possible and when night falls it is carried out of the palace and buried very quietly. No train of mourning coaches here, you see—but, then, they are never used in Turkey; no elaborate preparations for the last resting place of one all powerful a few hours before. 'With us, in fact, a dead sultan is nobody—his sacredness has descended to his successor. To him we turn our thoughts. We Osmanlis could not do as the Franks do—have a grand lying-in-state. We should bewail at the sight, and that would be incongruous with the rejoicing demanded of us on the accession of our new sovereign, and would be displeasing to him. Therefore, the custom of burying the sultans in this manner has never been interfered with; and it is best so.' "—[London Times.

A COLONY OF MADMEN.

The town of Gheel, situated in the province of Antwerp, has been for six centuries an abode of madmen, and tradition even takes the story back eleven centuries. There are 11,000 people in the place, and they have charge of 1300 lunatics from abroad, who are boarded around in the families and treated with great consideration. The children from youth are familiarized with the business, and all the people know how to manage those committed to their care. The inhabitants are all, so to speak, engaged in surveillance of the lunatics. One of the greatest social punishments that can be inflicted on a family is to declare that it is unfit to receive such boarders. The lunatics are disposed of among the inhabitants according to their wealth or station, wealthy patients being sent into the better families, and poor ones to the poorer. The cures average from 60 to 75 to the hundred. Gheel is divided into four districts, each with its overseer and physician. Large sums of money are spent in the place by the patients, and families generally are always desirous of having one or more lunatics on their hands.

The construction of the sewer from Bath road has employed a large force and the work is rapidly approaching completion.

AN ELECTION ROW.

TWO POLICEMEN ASSAULTED AND SHAMEFULLY TREATED—NO REASON ASSIGNED FOR THE DISGRACEFUL PROCEEDINGS—ARREST OF THE PRINCIPAL ASSAILANTS.

Quite a row occurred on Thames street last evening. It appears that a fellow named Thomas Mullen was at Greene's liquor store in the fifth ward and Officer Collins was called. Mullen wanted the officer to fight but as he declined, it was found necessary to procure the assistance of Officer Garnett. Garnett was assaulted by another fellow named John Welsh, and at the same time several other roughs seized Garnett and rushed him down Perry mill wharf. In the melee he was thrown to the ground and before he could get up he lost his badge, twisters and billy. The billy was knocked out of his hand while he was trying to protect himself. Both officers were then stoned and mud was thrown in Garnett's face. Officer Albro then came to the rescue and succeeded in clubbing a fellow who was assaulting Garnett, but he escaped in the crowd. Both Welsh and Mullen were secured and taken to the station house. The officers are in pursuit of evidence today to warrant arresting others engaged in the row. A crowd of upwards of three hundred was on the spot.

THE CLUB ROOMS.

The faithful of both parties gathered in large numbers at the club rooms last evening. All were eager for the news, and hope, and fear, had the ascendency by turns. Despite the bold assertions of implicit faith in the success of their favorite tickets, it was evident that the thoughtful men of neither party were fully satisfied that victory was theirs. At the original Tilden and Hendricks club room the veteran democratic leaders were present in full force, while at the central, the rush was still larger. The republicans came together at a somewhat later hour and all were busily engaged discussing the situation and speculating on the probable results. The returns came in rather tardily at first and gave no indication of the general result. At the republican headquarters the news that came from New York was far from assuring and though several dispatches came to the effect that Tilden had carried the state, the crowd was evidently disposed to expect better tidings at a later hour. At the democratic rooms the reverse was true, and the enthusiasm knew no bounds over the reported victory.

As the evening wore away and the returns continued to favor the democrats, the republican zeal went down lower and lower. The news from Connecticut, Louisiana and South Carolina were received in respectful silence. Still adverse reports came in with now and then a cheering ray of sunlight, but it was of no use. The conviction steadily grew upon all present that the democrats were the victors. At midnight hot coffee was served, amid cheers over the gallant fight that had been made, and the company dispersed in the best of spirits and with hope of better tidings in the morning.

A man can't travel into a woman's affections by getting on her train.

POLITICAL BRIEFS.

Out in the cold.

It is hazy today.

Boo hoo, hoo-hoo.

Take in the banners.

On trial for four years.

Turn about is fair play.

And now we will try, try, again.

Connecticut is joined to her idols.

Rhode Island did her duty yesterday.

Truth crushed to earth will rise again.

The Hayes and Wheeler club room is to let.

We have met the enemy and we are theirs!

They voted as they fought down in Georgin.

There were too many mules sent to Indiana.

The Quakers in Pennsylvania went to the polls.

We are tenting tonight on the old camp ground.

They voted too early and too often in New York.

Several new hats are on the street this morning.

The sober second thought will put things right again.

Massachusetts has a diet of Rice for another year.

What a wrangle there will be for the federal offices!

Old Newport gave a good majority for Hayes and Wheeler.

The United States Senate: the bulwark of American liberties.

Where, O where are Cooper and Carey? And echo says where?

Two Bens in Congress—Ben Hill and Ben Butler. Well matched!

The Granite State is as true to republican principles as ever. Thanks.

There are numerous candidates for the post office about town. But O! that republican senate. Must be confirmed, you know.

Amid the wreck of matter and crash of words it is gratifying to know that one *Page* is blotted out of Rhode Island politics forever.

What kind of fish do they catch up Salt river? There are several people about town who want to know as their faces are turned in that direction.

Hon. L. W. Ballou is reelected to Congress from the western district, and Hon. B. T. Eames from the eastern. Both have good rousing majorities.

The returns show that the greenback candidate, Peter Cooper, gets but 252 votes in New York City in a total vote of 171,000. He will now stick to his glue.

The political campaign of 1876 is at length over. The smoke of battle is cleared away and the results are in great part before us. It has been a hard fought and hotly contested campaign from the first to the last. Both parties have put their best and most available men into the field, and each has polled its largest possible vote. The hopes of partizans have been aroused to the highest pitch, and those belonging to the defeated party will feel keenly their disappointment. But there is consolation even for such. The tenure of office is short and the opportunity will soon come to try again. Many, indeed most of the evils foreseen in a political campaign are more immaginary than real and our faith in republican institutions is such that we shall expect the avoidance of the dangers that have threatened our country. It is not in the power of either party to overthrow our institutions. The attempt has been made under more favorable circumstances than will be likely to occur again, and the result was such as to extend and perpetuate republican government. And so we shall as a nation continue to prosper. The American flag will still wave over a free and happy people.

DO RATS REASON?

The Boston Courier says. A lady liveng in this city relates that the house occupied by herself and family became so infested with rats that, in the failure of all other means, they were obliged to resort to poison to exterminate them.

Phosphorous paste was used, spread thickly over meat, which was placed where the rats could readily get at it. Pursuing this course for a long time, they were surprised to find that, while the meat regularly disappeared the rats remained, their number apparently increasing instead of diminishing. One day a man in charge of an adjoining stable asked who was trying to poison rats, and, being told, replied:

"The rats are too smart for you."

He led the lady to the alley alongside the house, where there was a hydrant, the nozzle of which being broken off, left the water constantly running. Under the hydrant they saw several pieces of meat, some partly covered, and the others entirely destitute of any traces of the phosphorous paste.

After watching some time, the lady actually saw the rats not only eat the washed meat, but carry the coated pieces carefully in their mouths from her back door round into the alley, and deposit them under the running stream of the hydrant. Our correspondent says the rats may not have known the character of the coating on their meat, but their course argues a knowledge of the properties of water, and a power of adapting means to ends, akin to reason.

RECEIPTS.

Pumpkin Bread.—Stew the pumpkin until done; stir in the meal when hot; let it cool; then add your yeast; let it stand until morning; then take your flour and throw out your pumpkin; mix with molasses; have your dough soft; let it raise, then put it in your pans and bake.

One-crust Apple Pie.—Line your pie dish with the pastry, then quarter your apples, fill your pie dish with them, sweeten with sugar, and bake until the apples are tender, then take out of the oven, beat the whites of two eggs to a stiff froth, sweeten with one teaspoonful of powdered sugar, spread it over the pie, place it again in the oven, and brown lightly.

Clam Chowder.—Twenty-five clams, six potatoes, two onions, a piece of salt pork, each chopped fine; butter about size of an egg; salt and pepper to taste. Then pour in the clam juice and one pint each of milk and of water; six crackers, rolled; one teaspoonful celery seed. Boil slowly for four hours, adding water if it becomes too thick. Cut a lemon in slices and serve with it. Twelve large potatoes, three large onions, and a quarter of a pound of salt pork. Chop all together middling fine; add parsley to taste.

Pumpkin Pie.—Mash very fine, with the hands, one and a half cups of boiled pumpkin—using only the chunks of pumpkin, none of the water, then mix with that a heaping tablespoonful of flour—rubbed smooth with a little milk—one egg, three cups of milk, teaspoon and a half of lemon extract or ginger, salt, sugar to taste, and bake in a good-sized pie plate with a good wall of crust built up around the plate. It is a good way to cook the pumpkin not to put any water into the pot. If set on the back part of the range the heat will draw out the juice of the vegetable, it will then steam done, and no straining will be necessary, only be careful not to let it burn. The above is the quantity for one pie. Another way: Boil and mash half a pumpkin; strain off the water until quite dry; then add pint and a half of milk, five eggs, beaten lightly, half pound of sugar, quarter pound melted butter, half a pint of brandy, and a large teaspoonful of ground cinnamon; put in pastry crust and bake as a pie. This quantity will make six pies.

THE LATEST RUMOR.

A telegram received just as we go to press says:

"There is a bare chance of Hayes having one majority. He will if Florida, Louisiana and Wisconsin, now claimed by both parties, go for him."

TRANSIT OF VULCAN.

THE ASTRONOMER LE VERRIER CORRECTS A RECENT MISAPPREHENSION—WHAT HE SAID DIFFERENT FROM THE CABLED STATEMENTS—NO TRANSIT OF VULCAN ANNOUNCED.

PARIS, Oct. 20, 1876.

To the Editor of the New York Herald:—

The insufficiency of telegraphic communications, when treating delicate scientific questions, has brought about a misunderstanding between my confreres here and my friends in America, which I desire to dispel.

I have in no way announced a transit of the planet Vulcan. Professor R. Wolf, of Zurich, Switzerland, thought that a round, black spot, observed upon the sun on April 4, 1876, might be the return of an unknown body whose transit was remarked in 1820 by Steinhübel and in 1859 by Lescarbault. In the International Bulletin of the Observatory of Paris, September 23, which I send you herewith, I replied by saying:—"*If*, as these three apparitions are from the same body, this body will repass across the sun on the 2d or 3d of October, or on the 9th or 10th following." It was to decide upon this point that I proposed to Mr. Henry, the eminent secretary of the Smithsonian Institution, an attentive observation of the sun at the periods mentioned. On September 14, however, M. Ventossu, of Madrid, wrote a letter showing that the spot previously observed by Weber was simply an ordinary solar speck. According to this the question could only be settled by a proof of the transit in October.

Perhaps it will be considered that, knowing beforehand they could not succeed, the astronomers suspended observations. We did not consider it possible. The question presents itself in its light, a novel light, which I ask permission to elaborate. As you stated in the Herald of October 4, 1876, in refusing to group the three observations of Steinhübel, Lescarbault and Weber, I had recognized that the five observations of Fritsch, Decuppis, Sidebothom, Lescarbault and Lummis might, on the other hand, belong to the transit of one body, and that all represented it with the utmost exactitude by an orbit of a revolution of 33 j 02. It was in view of this new theory that it became necessary to investigate the periods of ulterior transits. The different intervals between the transits of Venus are known; the greater, 100 years; the lesser, eight. The planet Mercury also has particular periods, and, indeed, some might expect to meet the intra-mercurial planet in the transits. These transits, in effect, are regulated by a period of seventeen years, during which the transits of the planet across the sun occur, and afterward it may not occur for several years.

Several astronomers, and the savant M. Gould among others, if my memory does not deceive me, have remarked that, taking the observations of Lescarbault and Lummis, they have searched the same region of the sky most thoroughly without finding anything such as they described. The fact is explained today. According to the note which I addressed to you and to M. Gould, my *confrere* of Cordoba, you will see that Messrs. Lescarbault and Lummis observed that at the end of a certain series of transits nothing further was seen for seven or eight years. By the table you will also see at a glance in 1876 the transit across the sun in October, by a distance of 12 deg. 3 min. from the node, was doubtful but not absolutely impossible; while in 1877 there will be no autumn transit, that it will be necessary to wait from this year until after 1880. You will therefore see the reason which led me to believe in the necessity of permitting the astronomers to continue their researches notwithstanding the uncertainty of the result.

Another important question now presents itself, Will there be a transit during the spring of 1877? The conjunction with the sun should take place March 22, 1877, at a distance of 10 deg. 9 min. from the node. And if this distance were admitted as being certain, as well as the inclination of 12 deg., there would be no transit; but it would come very near. It would be necessary to diminish the inclination somewhat to change the longitude of the node a little—a very acceptable modification. Astronomers will doubtless desire to be very careful over any observations of the phenomenon, because there will be no other transit after the coming spring until 1885, to be more exact. There would be no other resource from this period except searching directly beyond the sun. My eminent colleagues, Mr. Peters, of Clinton, N. Y., and Mr. Watson, of Ann Arbor, Mich., will probably test this matter, and, I hope, succeed.

Supposing that the five observers whose observation served us as a point of departure were not deceived, then are we not deceived. Upon what, I would remark, however, could we base the accuracy of three of them? For three of the observations would suffice to establish the results which we wish to arrive at; the others would change nothing. I remain, yours truly,

LE VERRIER.

The Boston papers tell of a conductor who has run a train on a railroad twenty-eight years travelling 110 miles each day during that time except Sundays. The wonder is, they think, that he has never had an accident; but to most people the surprise will be that he hasn't long since become sole owner of the road.

BUSINESS NOTICES.

THE INFLUENCE OF MALARIA COUNTERACTED.

That the harmful influence upon the human system of malaria may be effectually counteracted has been demonstrated for years past by the protection afforded the inhabitants of vast miasma-breeding districts in North and South America, Guatemala, Mexico and the West Indies, by Hostetter's Stomach Bitters. Used as a preventive, they have invariably been found to be a most reliable safeguard against chills and fevers, bilious remittants, and still more malignant types of malarious disease, and when employed as a remedy have always proved their adequacy to the task of eradicating such maladies from the system. For disorders of the stomach, liver and bowels, which in hot climates and miasmatic localities are particularly rife, the Bitters are a prompt and thorough remedy. They also strengthen the system, tranquillize the nerves, promote digestion and sound sleep, and impart unwonted relish for food.

FALSE IMPRESSIONS.

It is generally supposed by a certain class of citizens, who are not practical or experienced, that dyspepsia can not invariably be cured, but we are pleased to say that Green's August Flower has never, to our knowledge, failed to cure dyspepsia and liver complaint in all its forms, such as sour stomach, costiveness, sick headache, palpitation of the heart, low spirits, &c., &c. Out of 30,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from druggists of wonderful cures. Three doses will relieve any case. Try it. Sample bottles 10 cents. Regular size 75 cents. For sale by James H. Taylor.

Consumption Can be Cured.

Schenck's Pulmonic Syrup,

Schenck's Sea Weed Tonic,

Schenck's Mandrake Pills,

Are the only medicines that will cure Pulmonary Consumption.

Frequently medicines that will stop a cough will occasion the death of the patient; they lock up the liver, stop the circulation of the blood, hemorrhage follows, and in fact, they clog the action of the very organs that caused the cough.

Liver Complaint and Dyspepsia are the causes of two-thirds of the cases of Consumption. Many persons complain of a dull pain in the side, constipation, coated tongue, pain in the shoulder-blade, feelings of drowsiness and restlessness, the food lying heavily on the stomach, accompanied with acidity and belching up of wind.

These symptoms usually originate from a disordered condition of the stomach or a torpid liver.

Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly checked, will find the stomach and liver clogged, remaining torpid and inactive, and almost before they are aware the lungs are a mass of sores, and ulcerated, the result of which is death.

Schenck's Pulmonic Syrup is an expectorant which does not contain opium or anything calculated to check a cough suddenly.

Schenck's Sea Weed Tonic dissolves the food, mixes with the gastric juices of the stomach, aids digestion, and creates a ravenous appetite.

When the bowels are costive, skin sallow, or the symptoms otherwise of a bilious tendency, Schenck's Mandrake Pills are required.

These medicines are prepared only by

J. H. Schenck & Son,

N. E. corner Sixth and Arch Sts., Phila.,

And are for sale by all druggists and dealers.

All men are not homeless, but some men are home less than others.—[N. O. Republican.

When a man has come by a thing honestly he is supposed to have passed without stealing it.

What Turkish potentate's name expresses contempt for a mother's rebuke? Omar Pasha!

Just because the Esquimaux feed on tallow candles an exchange calls them "light eaters."

The man who went into a saloon to get an eye opener for nothing had his eye closed for a week.

The last remains of Daniel Boon's fort are still visible, but becoming obliterated, at Boonesville, Ky.

Inflationists notice with satisfaction that Michigan farmers are making large quantities of dried apples.

The rice crop in South Carolina and Georgia is five per cent. larger than in any previous year since the war.

Paris wants underground railways, and has sent engineers to London to see and report "how the old thing works."

The new Opera House in Florence is to cost a million dollars. It will take five years to build and another to fresco.

The vandalism of tourists has destroyed the monument over Bunyan's grave at Bunhill Fields. It has stood nearly 200 years.

"Elbow Room" is the title of Max Adeler's new book. It will be out during the second or third week of the present month.

"It's all for the best," remarked Blinks, with a sigh, as he paid for the hat he had lost. "Nay," interposed the lucky man, "'tis all for the better."

Not less than 10,000,000 persons visited camp meetings in America in the course of the past summer, and the property used for these purposes was worth $5,000,000.

Prosperity shines on different persons much in the same way that the sun shines on different objects. Some it hardens like mud, while others it softens like wax.

A Western paper says that "true music is something that stays with you nights." This would seem to put the nightmare in the front ranks of American composers.

A British scientist finds that the brain of the dog is smaller than the wolf, and that the brain of a Newfoundland dog is very little larger than a terrier's.

To save quarreling with the life insurance company, a Chicago woman stopped her husband's funeral procession before the office and sent word to the president to satisfy himself.

And still the postal department has another idea in postal cards—something combining the beauty of an oil painting and the convenience of a shawl-strap.—[Boston Traveller.

Bruce had recourse to the sword, Tell to a bow and arrow, and Washington appealed to the God of battles, but when a woman strikes for liberty, she uses anything she can lay her hands on.—[Brooklyn Argus.

An organist of our acquaintance came in the other day full of glee at the improvement of the times. The church committee had offered to raise his salary—that is, the part that was in arrears.

The Baltimore Bulletin says that, "when Burnside is at home in Rhode Island, the shadow of his whiskers trespasses upon Massachusetts and Connecticut." This is mere jealousy, as that editor's photograph would prove.

Now that Tupper has arrived in this country to give readings from his works, Walt Whitman should go to England and read selections from his poems. We must get even with those Britishers somehow.—[Norristown Herald.

Said a college professor to a notorious laggard, who was once, for a wonder, promptly in his place at morning prayers, "I marked you, sir, as punctual this morning. What is your excuse?" "Couldn't sleep, sir," was the reply.

The Bayreuth orchestra have refused to play again in their underground apartment, and the king of Bavaria has placed his own orchestra at the disposal of the great theatre.

Importation of potatoes from Great Britain, Portugal and Greece, as well as the United States, has been forbidden by the Swedish government, in order to guard against the Colorado beetle.

A prophetic itemizer remarks: "Palestine is to have a railroad; and the cry will soon be: 'All aboard for Jerusalem. Passengers for Moab and the Dead Sea will please remain in the forward car.'"

In the old Hall of Representatives at the Capitol in Washington is a placard on which is printed in large letters, "Views of the *statute* of Lincoln for sale here." Is this one of the consequences of a democratic house, or is the schoolmaster abroad?

A man rushed into the postoffice, "Quick; a postage stamp!" "Of what denomination, sir?" "The cheapest you have." "But where is the letter to go?" "It isn't for any letter; I've cut my finger."

A man was playing dice in a saloon in Knoxville, Cal., when the funeral procession of his wife came by. He went to the door, waved his hat, hurrahed, and returned to his game. That night he was almost killed by a mob.

A young lady boasting that the choir of the church which she attended was unusually good, her mischievous brother called out: "I say, Sis; is your quire foolscap?" "No," she indignantly responded, "it is a paid quartette." "Oh," said Tom, "then it is commercial note."

In some churches choirs are permitted to sing their own voluntaries with which to close the service. At the funeral of a distinguished gentleman of Massachusetts, the singers sang of their own accord:—

"Believing we rejoice,
To see the curse removed."

The head-waiter at an up-town hotel where style is above everything else ought to be named for foreign ambassador. He is too consequential in dress-suit and hair-oil for this life, and as the gods doubtless love him the mystery is why he did not die young! The way he inspects you before he designates your seat by a theatrical wave of his soiled hands is simply superb, and his airy manner is just breezy enough to be intolerable. One day a western man came in, and, catching the head-waiter by the arm and shoulder with an iron grip, hissed in his ear: "Give me a seat without any airs, or I'll break your back!" The western man was advantageously seated.—[N. Y. Evening Mail.

Miscellaneous.

CHILDREN TEETHING

MRS. WINSLOW'S
SOOTHING SYRUP,

For Children Teething,
greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.
Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to Your Infants.
We have put up and sold this article for years, and CAN SAY IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after years of experience, AND PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation has been used with NEVER FAILING SUCCESS in

Thousands of Cases.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic.

We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle.

Be sure and call for
"Mrs. Winslow's Soothing Syrup,"
Having the fac-simile of "CURTIS & PERKINS" on the outside wrapper.

Sold by druggists throughout the world. aug17-dm

MASON & HAMLIN
CABINET ORGANS
Have been unanimously assigned the
"FIRST RANK
In the SEVERAL REQUISITES"
Of such instruments, at the U. S. CENTENNIAL, 1876,
and are the **only organs assigned this rank.** Their superiority is thus declared, not in one or two respects only, but in **all the important qualities** of an organ. A **medal** and **diploma** have also been awarded them, but medals of equal value were awarded all articles deemed worthy of recognition, so that many makers can advertise "first medals" or "highest awards."
Comparative rank in excellence, has been determined by the **judges' reports** alone, in which the MASON & HAMLIN ORGANS are **unanimously** assigned **"The FIRST RANK in the several requisites"** of such instruments, and are the **only** ones assigned this rank. See judges' reports. This result was not unexpected, for these organs have **uniformly** taken highest awards in such competitions, there being less than six exceptions in hundreds of comparisons. They were awarded first medals, and highest honors at **Paris** 1867, **Vienna** 1873, **Santiago** 1875, **Philadelphia** 1876; having thus been awarded highest honors at **every world's exhibition** at which they have competed, and being the **only** American organs which ever obtained any award in Europe.
NEW STYLES, with improvements exhibited at the CENTENNIAL; elegant new cases in great variety. Prices very lowest consistent with best material and workmanship. Organs sold for cash or installments, or rented until rent pays. Every organ warranted to give entire satisfaction to every reasonable purchaser or the money returned. ILLUSTRATED CATALOGUES sent free.

TO THE LOVERS of STEREOSCOPIC VIEWS.
THE ATTENTION of the public is invited to the following views from negative by J. A. WILLIAMS, which is believed to be the best and largest collection of the gems of Newport scenery ever offered.
The negatives are all carefully taken with the best materials and instruments and aim to present not merely patches of landscapes from points chosen at random as is the case with many others, but, views which shall combine within themselves all the best elements of a picture in the artistic sense.
We would call particular attention to our new cabinet size views taken the present season, 1876, which exhibit with all the fidelity of the stereoscope.
Parties who may wish to make presents to their friends abroad, or to carry home memento of Newport, cannot make a more acceptable choice than by selecting from the many beautiful views of Newport and surroundings.
Interiors and exteriors of houses taken to order, parties horses, &c.

Fall Campaign of 1876.
TO ALL who wish to go through the exciting presidential election with their good reputation unspotted, I will say that the best and cheapest way is to come direct to my carriage depot and purchase a good serviceable carriage with which you can rush over and by all political orators who are trying to make the dear people think just now that the salvation of our great country depends upon the people following their advice instead of each voter thinking and acting for himself. If each voter will follow this advice our country is safe.
I offer to sell cheap the following:
CARRIAGES:
3 top buggies all in good order and newly painted.
4 half top barouches.
1 Brownell carryall; second-hand, in good order.
1 coupe or storm carryall, cheap.
2 new phaeton buggies.
6 open wagons cheap.
1 new carryall.
1 new express wagon.
1 new open business wagon cheap.
4 double express wagons.
1 two horse extension carryall.
2 nice dog carts.
3 two horse sleighs, (better buy now,) and several others.
Thanking my friends for their very liberal patronage during the past. By their kindness I have been able to dispose of over forty different carriages—a very good sale for Newport. I still hope by fair dealing to merit a continuance of their favors.

HOUSE PAINTING.
Now is the time to make arrangements for fall and winter house painting, and as I don't propose to call and annoy people at their residences by asking them for work and promising to do more work and better work than my brother painters can do for the same money; but, if people wanting anything done in the painting line from glazing a light of glass to painting a hotel, will call on me or drop a note to box 24, I will do the utmost to please, and will warrant all work entrusted to my care, to be done as agreed and at the time specified. My reference is the parties whom I have worked for, for the past ten years or more. Respectfully,
A. L. BURDICK,
House and carriage painter.
